

Since 1996 the centre has been managed by the husband and wife team also being the owners, working very long ours 5:30am to 19:00 and even the husband doing his own transport of students to and from Bambi day care at the time and still up to today the centre is owner run.

### **Principal**

On 1 February 2005 we appointed a deputy principal Sharon whom has been in our employment since April 2000 and who started as a teacher. Sharon was promoted to full principal in January 2012. Sharon is and has been our right hand, our ears and eyes protecting our centre with all means available. She has grown from strength to strength mentally, physically and spiritually. She's a real gem and we are very fortunate to have her as our Principal.
